

## Zonar DashCam™ (dual-facing)

Meet your eyes and ears on the road.

Protect everyone on the road by enhancing your fleet's culture of safety. Install AI-powered Zonar DashCam dual-facing devices in your vehicles to detect, capture and upload footage of specific safety events to the secure, online Zonar Coach dashboard. View the HD DashCam footage online, on demand, anytime.

Exonerate drivers faster, lower fleet insurance premiums, and reduce legal expenses through faster investigations. Plus, coach drivers using objective video of specific habits and risky instances.

If you choose, configure the DashCam to alert drivers in real time to self-correct in the moment, before they cause an incident.
