

Manage every mixed fleet asset. On one platform. In real time.

Pits & quarries | Construction | Utility | Asphalt | State & local

Dig into actionable data.

Track where they are. Where they've been. And their time onsite.
Ground Traffic Control

Reduce and calculate overall cost per ton averages (CPT) and per-cycle count by 58s.
Zonar SightIQ Optimize

Capture real-time location, diagnostics, idling & accessory use.
Zonar V4 & V4R

View proprietary ECM data across major manufacturers.
Zonar SightIQ Predict

Keep assets healthy & your fleet safe.

Pull fault codes from all major vehicle components & know what they mean.
Zonar FaultIQ

Protect against false claims & reduce legal expenses.
Zonar Coach

Stay HoS compliant with accurate logs.
Zonar Logs

See which faults impact CSA scores, fuel economy & emissions.
Zonar FaultIQ

Extend tire lifespans with remote, online tire pressure monitoring.
ContiConnect Live Integrated

View health scores by fleet level, site level & manufacturer.
Zonar FaultIQ

Streamline & verify required inspections.

Eliminate paperwork with fully customizable electronic inspections.

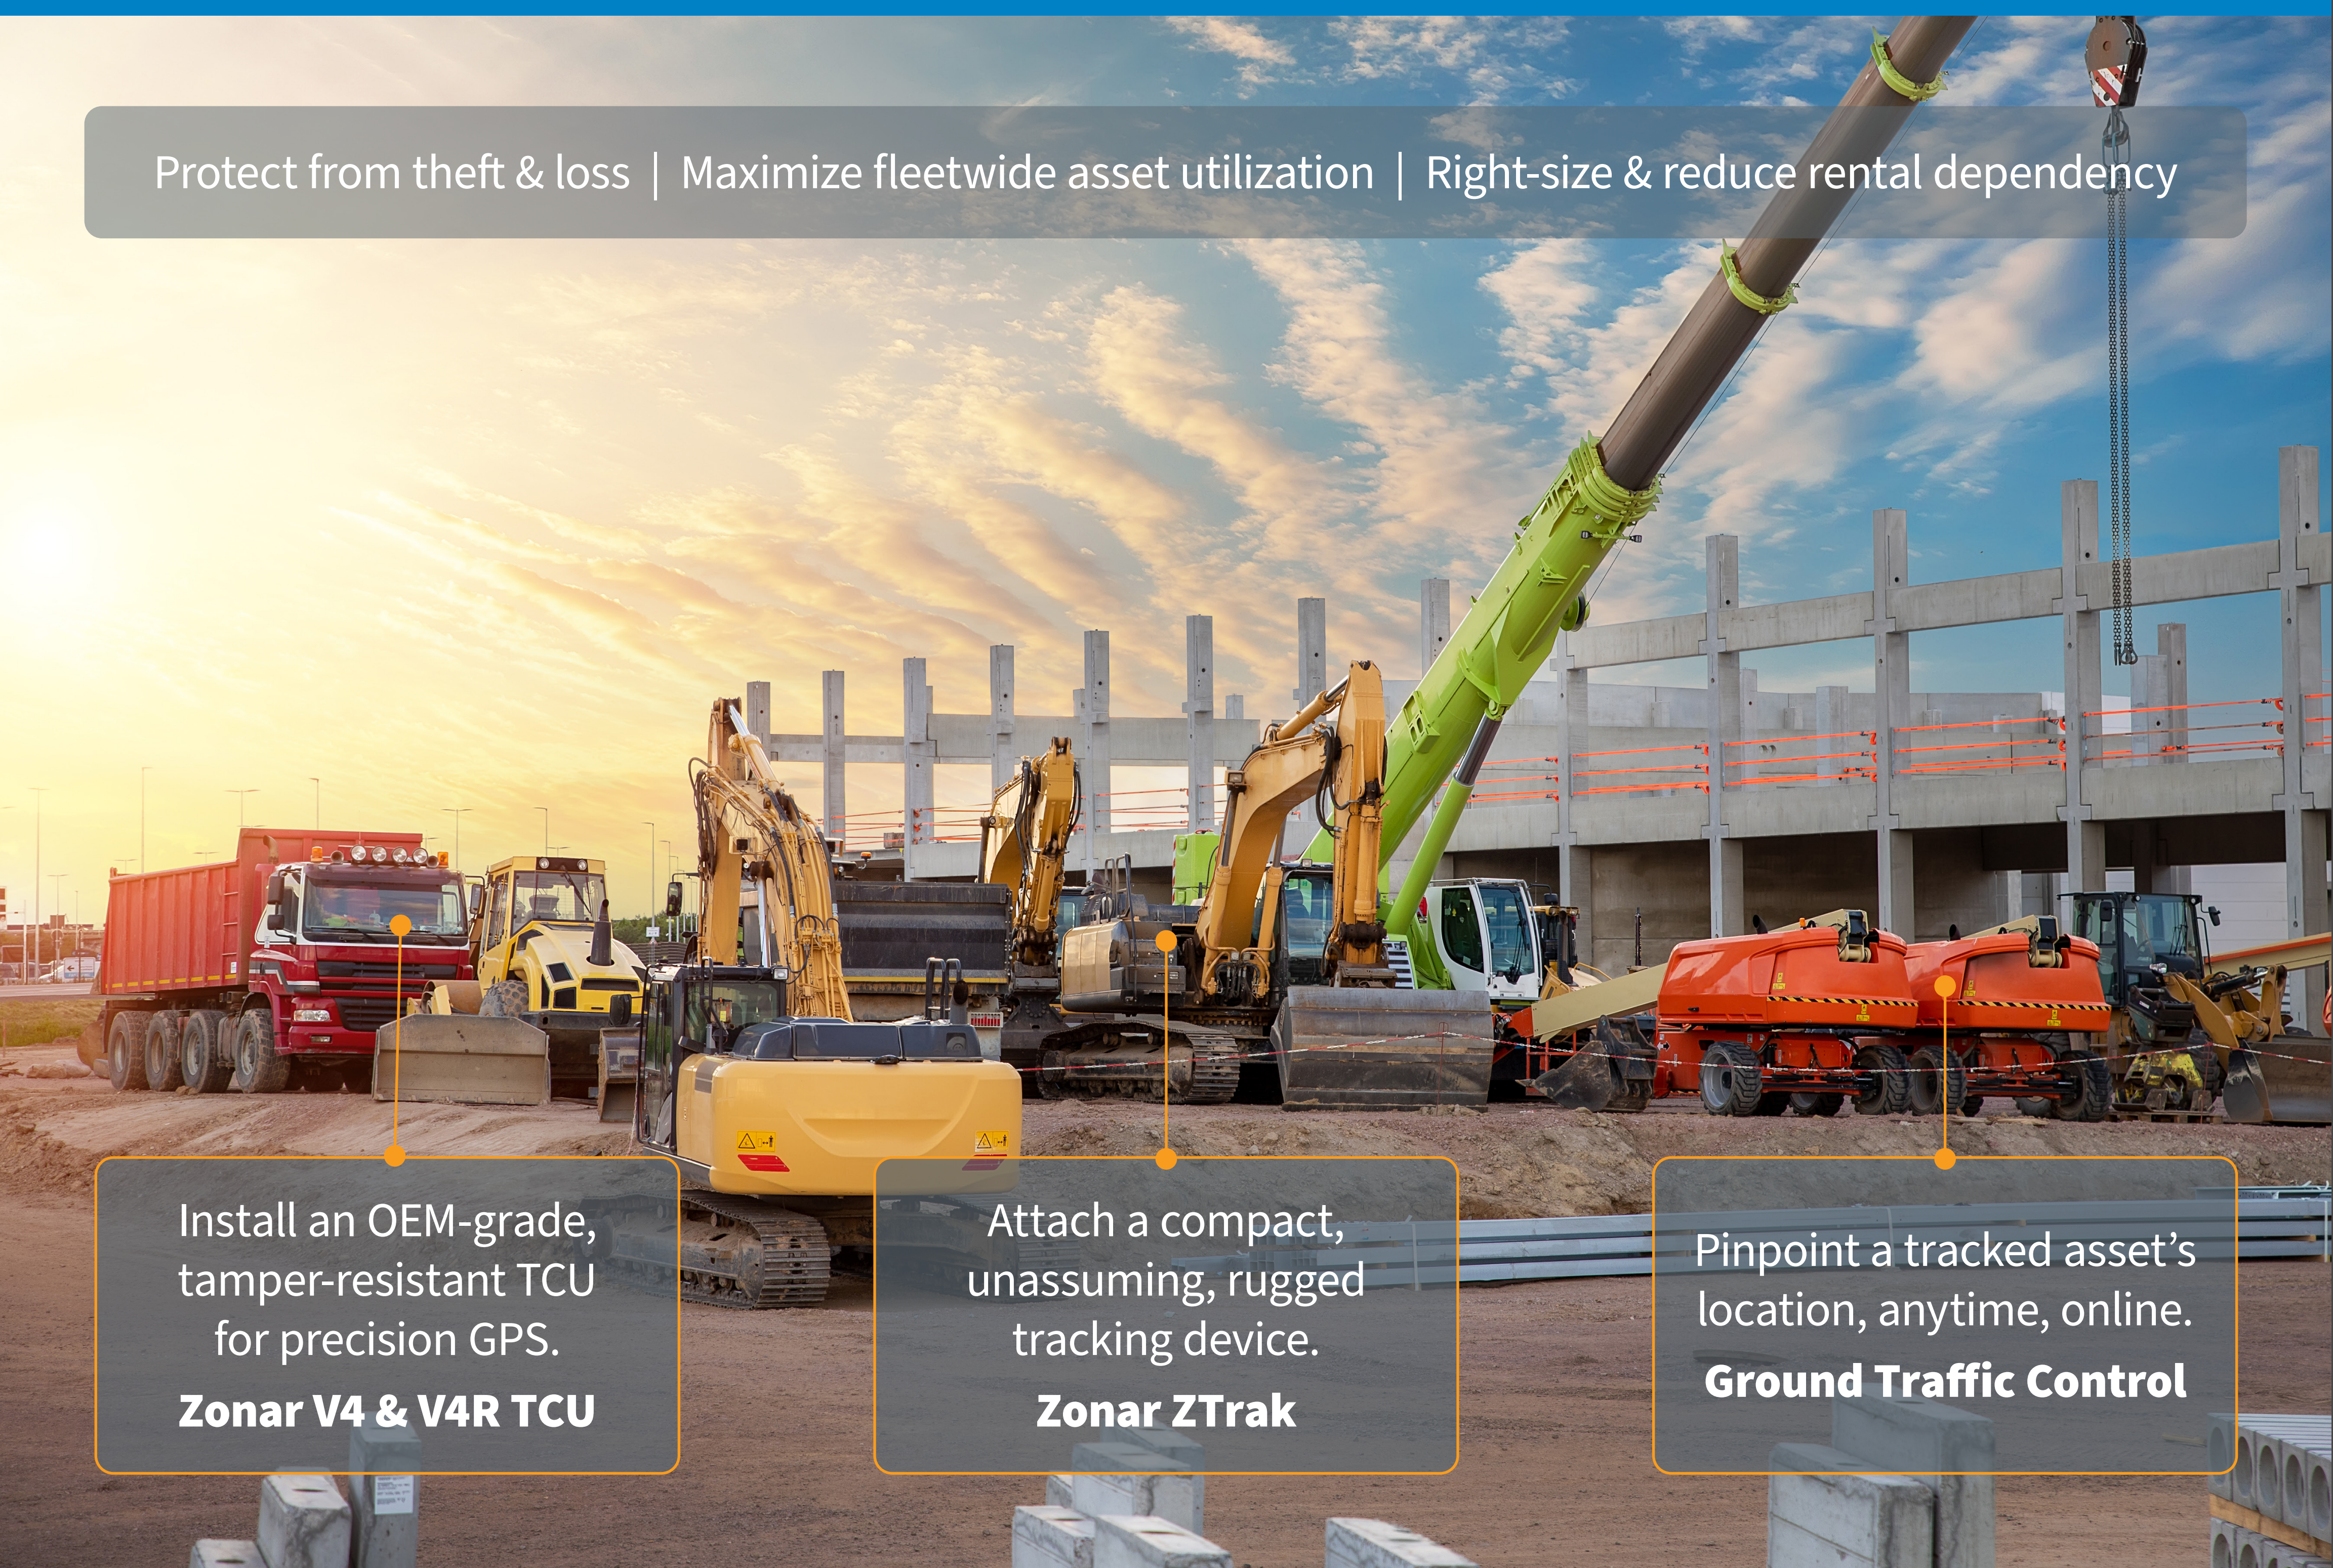

Choose from built-in inspection configurations for light- & heavy-duty, utility & off-highway assets.

Integrate with popular maintenance platforms to streamline workorder processes.

Track any asset, anywhere.

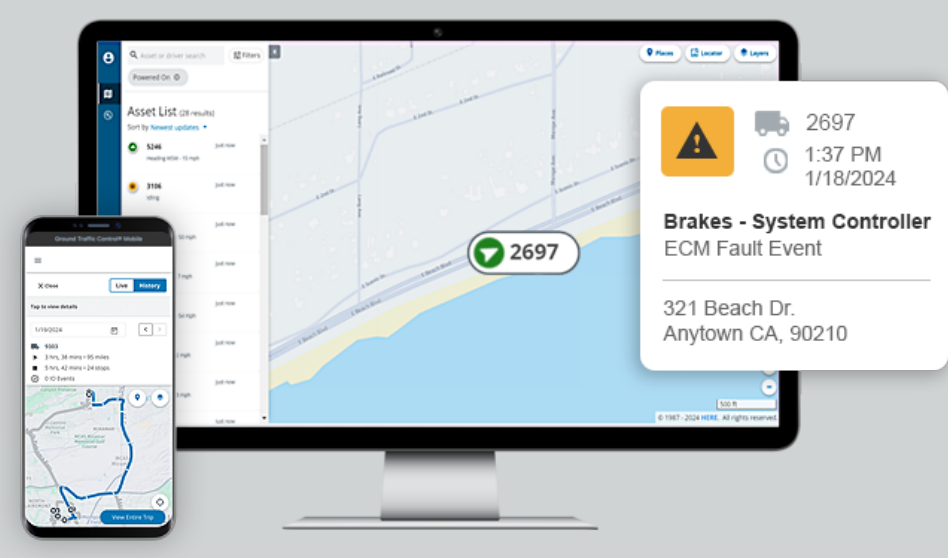

Protect from theft & loss | Maximize fleetwide asset utilization | Right-size & reduce rental dependency

Install an OEM-grade, tamper-resistant TCU for precision GPS.
Zonar V4 & V4R TCU

Attach a compact, unassuming, rugged tracking device.
Zonar ZTrak

Pinpoint a tracked asset's location, anytime, online.
Ground Traffic Control

About that Zonar ZTrak tracking device. Reduce field service costs with its IP67-rated design and 10-year (1 or 2 reports daily) field-replaceable battery.

Ground Traffic Control®

Monitor and manage your entire fleet of on- and off-highway assets on one platform.

Zonar SightIQ™ Optimize

Consolidate jobsite data into real-time data, across locations. And automate production studies.

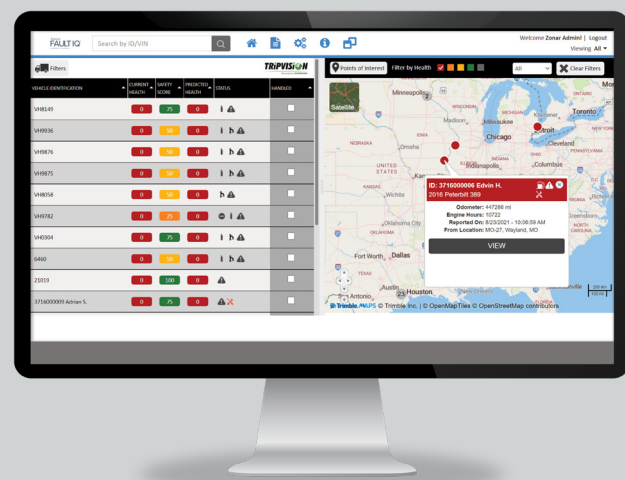

Zonar V4 & V4R™ TCU

Track assets in real time. Pinpoint locations, even between sites. See where and when every start, stop, turn, brake, idle and PTO event occurs, as it occurs.

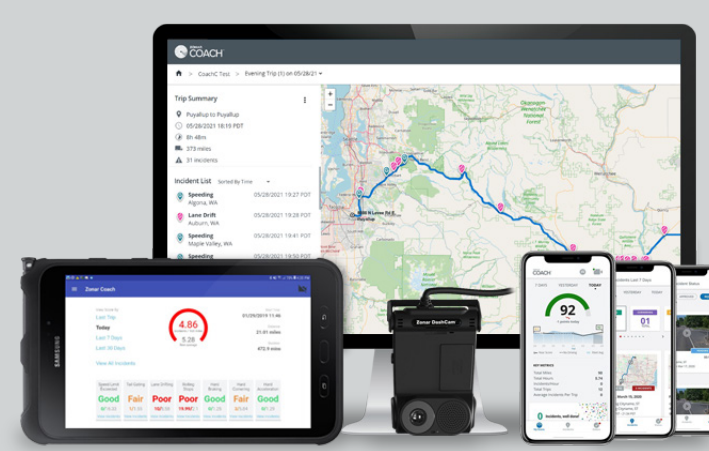

Zonar SightIQ™ Predict

Open visibility across asset types, makes, manufacturers and jobsite locations.

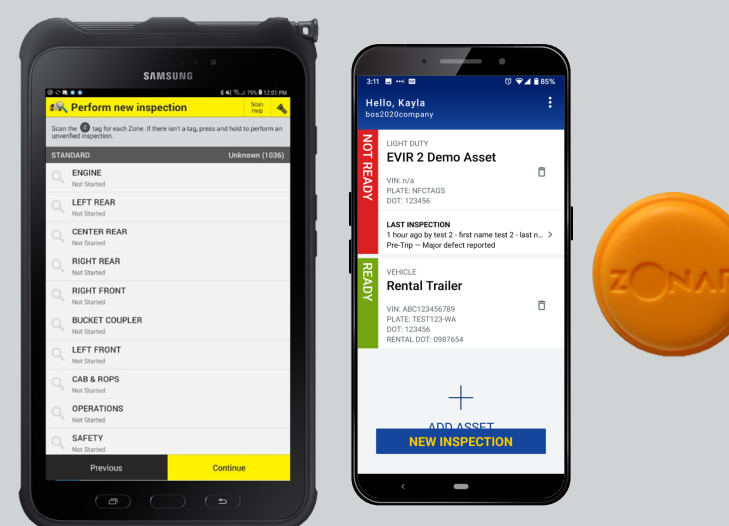

Zonar FaultIQ®

See each vehicle's health, fault codes and location in a single view.

Zonar Coach™

Protect your fleet with on-demand footage of what happened before and during an incident.

Zonar EVIR®

Electronically verify every required walkaround inspection. Comply with DOT, OSHA and MSHA regulations.

Zonar Logs™

Accurately and easily track on-highway Hours-of-Service (HoS).

ContiConnect Live Integrated

Remotely monitor each tire's temperature and pressure online, even in motion.

Zonar ZTrak®

Track assets wherever they roam, including into extreme temperatures, rain, sleet and snow. Ideal for assets deployed over long periods.
