

**Ensure**  
clear  
communications

**Reduce**  
driver distractions  
& fatigue

**Avoid**  
unnecessary  
hardware

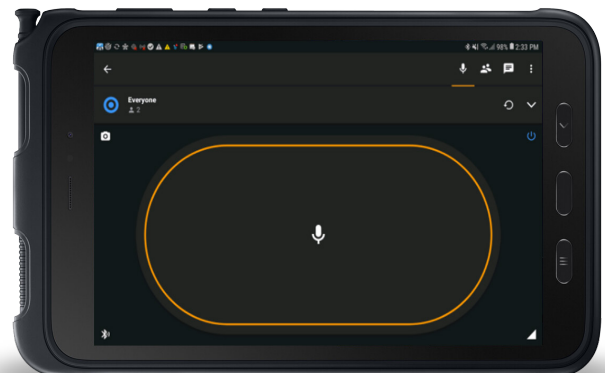

**Integrate**  
onto one,  
seamless platform

## Hear and be heard in loud environments.

### Focus when you need to the most.

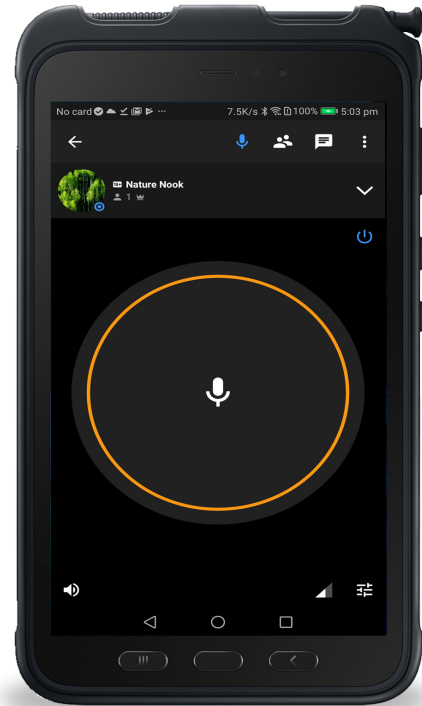

Loud, disruptive environments make it hard to communicate—not to mention stay focused. People who use Zonar tablets with Zello, a Zonar-certified push-to-talk app, now have an accessory to reduce driver distractions. Perfect for commercial trucking, school systems and vocational fleets, Stone Mountain's speaker mics for Push-to-Talk LTE enable drivers in noisy, busy environments to hear and be heard more clearly while staying focused on the road.

Clearer communication and safer driving—for a fraction of the cost traditional two-way radio systems. Stone Mountain's LTE Speaker Mics coupled with Zonar-approved tablets don't require antennas, towers, licensing or monthly infrastructure rental costs.

### This combined solution:

- Costs less than traditional two-way radios
- Reduces distracted driving & driver fatigue
- Is easy to use with electronic logging and telematics systems
- Supports custom call groups and channels
- Integrates driver tools on a single mobile platform
- Is available on the Samsung Galaxy Tab Active devices available from Zonar.
- Has a rugged, waterproof design
- Is loud and clear at 116 decibels
- Enhances support for driver safety and distracted driving rules compliance

## About Zonar

Founded in 2001, Zonar has pioneered smart fleet management solutions throughout vocational, pupil, mass transit, and commercial trucking industries. Zonar's mission is to enhance the safety, performance, and success of our customers by transforming the delivery of innovative insights for commercial fleets around the world. Headquartered in Seattle and part of the Continental family, Zonar also has a Technology Development Center in downtown Seattle, a regional office in Cincinnati, and a distribution center outside of Atlanta.

## About Stone Mountain

Stone Mountain designs, manufactures and markets a complete line of communication devices, including IP68 waterproof, MIL-STD-810H compliant wired and Bluetooth speaker mics, Mesh Network radios, satellite phones, audio accessories and custom solutions for LTE and LMR applications. Their feature-rich products are built and supported in the USA to the highest quality standards and support the transportation, industrial, business, public safety and military market sectors.
