

Track your workforce. Control labor costs.

Mobile workforce management that fits your fleet.

Make mobile timekeeping simple, straightforward and most importantly, accurate. TCP Software, a Zonar Alliance Partner, streamlines time and attendance tracking for drivers, fleet managers, shop operators and even payroll.

Drivers clock in and out on their Zonar tablet through the TCP [MobileClock App](#), the TCP mobile timekeeping application. Fleet managers view timekeeping details in real time. Plus, drivers, fleet managers and shop operators access TCP self-service attendance and employee scheduling, all from their Zonar tablet.

Streamlined workflows save time and money.

Mobile and accurate time and attendance tracking saves everyone time. The TCP solution integrates with multiple payroll and ERP systems to eliminate inefficiencies normally associated with manual payroll processes.

More than that, real-time workforce management gives you data to control labor costs. Accurate timekeeping means accurate payroll, and mitigates the risk of non-compliance with FLSA and other regulations.

Key features

- All-in-one mobile workforce management application
- Web-based time and employee tracking
- Automated and flexible employee scheduling
- Ensures compliance with FLSA and other labor statutes
- Certified for use on Samsung Galaxy Tab Active tablets

An all-in-one solution, all on one tablet.

Zonar tablets equipped with MobileClock fit school bus fleets, commercial fleets, transit fleets and vocational fleets such as construction and utility. Small fleet or large, this solution enables efficient workforce management as well as mobile time and attendance tracking.

MobileClock is tested and certified to work for use on the [Samsung Galaxy Tab Active3](#) tablet. The TabActive3 also includes Zonar Mobile Shield™ for a fully managed mobile device solution, with enterprise grade security.

About Zonar

Founded in 2001, Zonar has pioneered smart fleet mobility solutions throughout vocational, pupil, mass transit and commercial trucking industries. Zonar's mission is to enhance the safety, performance, and success of our customers by transforming the delivery of innovative insights for commercial fleets around the world. Zonar helps fleets of all sizes maximize the use of their assets with solutions dedicated to improving compliance, efficiency, maintenance, ridership visibility, safety, and tracking. Headquartered in Seattle and part of the Continental family, Zonar also has a Technology Development Center in downtown Seattle and a distribution center outside of Atlanta.

About TCP

For 30 years, TCP Software has been a leading workforce management solutions provider offering time & attendance, employee scheduling, leave management, document management and mobile solutions to keep track of employees, manage labor costs and reduce compliance risk. The software seamlessly integrates with hundreds of ERP/HCM and payroll providers and the MobileClock app provides employees the ability to clock in and out from anywhere. Today, more than 30,000 customers and millions of users trust TCP's software, hardware, services and support to transform the way they optimize operations.
